PERSONAL STATEMENT

I am a RCOG subspeciality accredited Consultant Gynaecological Oncologist with over a decade of senior clinical experience in complex cancer surgery and multidisciplinary care. My practice encompasses the diagnosis and management of cervical, endometrial, ovarian and vulval malignancies.

From the outset of my medical career, I have maintained a strong academic and professional interest in ethics, law and patient communication. I completed an intercalated BSc in Bioethics followed by a Master's degree in Health Ethics and Law. This academic foundation underpins my medico-legal work and informs my approach to balanced, evidence-based expert opinion. I have completed Bond Solon courses in Report Writing for Expert Witnesses, Courtroom Skills and Civil Law and Procedure for Expert Witnesses

I currently serve as Lead Cancer Clinician within my Trust and have previously served as Lead for Gynaecological Cancer. I accept instructions from claimant solicitors, defendant solicitors and the Court. My reports are prepared in accordance with CPR Part 35 and the Expert's overriding duty to the Court. My approach is methodical, impartial and evidence-based, with the aim of assisting the Court through clear analysis of the facts against accepted standards of practice at the relevant time.

EMPLOYMENT HISTORY

From	Grade	Hospital	Specialty
Aug 2017	Consultant	Royal Derby	Gynae-Oncology
Apr 2014	SST	Birmingham City	Gynae-Oncology
Aug 2013	ST7	Royal Derby	Gynae-Oncology / Vulval Disease

NATIONAL GUIDELINES / ACADEMIC WORK

Author: BGCS/BMS guidelines on management of menopausal symptoms following treatment of gynaecological cancer (2024) and management of unscheduled bleeding on hormone replacement therapy (2024).

Reviewer: RCOG Ovarian Cysts in Postmenopausal Women (Green-top Guideline No. 34) minor update (2025), BGCS uterine cancer guidelines (2022), and BGCS cervical cancer guidelines (2020).

Selected academic work includes peer-reviewed publications in surgical outcomes, quality performance indicators, benchmarking methodology and standards of care in gynaecological oncology, together with book chapter authorship and ongoing peer review for BJOG, Gynecologic Oncology and The Obstetrician and Gynaecologist. For full academic achievements please see my full CV.
